Section 4 – First Aid Measures

**General**: If irritation or other symptoms occur or persist from any route of exposure, remove the affected individual from the area: see a physician/get medical attention.

**First Aid – Skin Contact**: Wash with soap and water. Remove contaminated clothing. If persistent irritation occurs, seek medical attention.

**First Aid – Eye Contact**: Flush eyes thoroughly with copious amounts of water. Seek medical attention if irritation persists.

**First Aid – Inhalation**: Remove to fresh air. Seek medical attention if irritation persists.

**First Aid – Ingestion**: If swallowed do not induce vomiting. Rinse mouth out with water. If irritation persists seek medical attention.

**Protection of first aid responders**: Wear proper personal protective clothing and equipment.

Ingestion may cause gastrointestinal irritation, nausea, vomiting, and diarrhea. Repeated or prolonged exposure may cause irritation of eyes and skin.

Section 5 – Fire Fighting Measures

**Extinguishing Media**: ABC dry chemical, foam or carbon dioxide.

**Unusual Fire & Explosion Hazards**: The pressure in sealed containers can increase under the influence of heat and rupture.

**Special Firefighting Procedures**: Wear positive pressure self-contained NIOSH approved breathing equipment and approved protective equipment if necessary. Prevent fire extinguishing water from contaminating surface water or the ground water system.

Section 6 – Accidental Release Measures

**Personal precautions, Protective Equipment, and Emergency Response**: Use personal protective equipment as recommended in section 8.

**Environmental precautions**: The product should not be allowed to enter drains or soil.

**Methods and materials for containment and cleaning up**: Large spills can be controlled mechanically by pumping for disposal. Soak up with inert absorbent material (e.g. sand, silica gel, sawdust). Clean contaminated floors thoroughly while observing environmental regulations.

Section 7 – Handling And Storage

**Precautions for safe handling**: When working with any chemical product, use good workplace procedures. Do not cut, puncture, or weld on or near the container. Wash thoroughly after handling this product. Always wash up before eating, smoking or using the facilities. Use under well ventilated conditions. Avoid skin and eye contact. Avoid inhalation of mist, spray, fume or vapor. Avoid drinking, tasting, swallowing or ingesting this product. Wash contaminated clothing before reuse.

**Conditions for safe storage**: Store between 4 and 38°C (40 and 100°F). Keep away from heat, sparks, and open flames. Avoid extreme heat or cold. Do not store in open, unlabeled or mislabeled containers. Keep container closed when not in use. Empty container contains residual product which may exhibit hazards of product. Do not reuse empty container.
