

## Atlantis, The Palm & Aquaventure Water Park

**Atlantis, The Palm & Aquaventure water park, started construction in 2006 on the apex of the artificial Palm Island.** The palm was the first resort to open its doors on The Palm Jumeirah in September 2008. Construction costs were estimated to be \$1.5 billion. The project is now in Phase 3, bringing everything together with a new unique vision for the water park. Atlantis Aquaventure will add 79 rides with new technology, including the world's longest water slide. It is also home to 26 marine experiences, water sport activities, and 26 Food & Beverage outlets.

Isolatek International's Licensee Greentech supplied recognized applicator Palgan Insulation Company LLC with our ISOLATEK<sup>®</sup> Type 300, which was applied to protect Atlantis, The Palm. GREENTECH Thermal Insulation Products Manufacturing Co. in the United Arab Emirates produced ISOLATEK Type 300 Wet Spray Spray-Applied Fireproofing Material (SFRM) that was used to satisfy the life safety ratings at the Atlantis, The Palm. ISOLATEK Type 300 SFRM provides up to 4-hour fire resistance ratings on floor and roof deck assemblies, steel beams, columns, and joists. ISOLATEK INTERNATIONAL products are industry-leading with their physical performance and application efficiencies which are unsurpassed.
